

Order to Cash (O2C)

Project Performance Report

Comprehensive Analysis of Sales, Collections & Receivables

Fiscal Year 2024–25 | Report Generated: June 2025

Total Orders	Total Revenue	Total Collections	Outstanding
1,000	■35.37M	■24.33M	■11.03M

1. Executive Summary

This report presents a comprehensive analysis of the Order-to-Cash (O2C) process for Fiscal Year 2024–25. The dataset covers **1,000 transactions** across four regions (East, North, South, West) and twelve months, providing insights into revenue generation, payment collections, outstanding receivables, and collection efficiency. The business recorded a **total revenue of ₹35.37 million** with collections of **₹24.33 million**, reflecting a collection efficiency of **68.8%**. Outstanding receivables stand at **₹11.03 million**, with a significant portion aged beyond 90 days requiring immediate attention. The **West region** dominates revenue contribution at 78.8% of total sales, while average collection days of 110.0 days indicate opportunities for process improvement.

2. Key Performance Indicators

3. Visual Analytics & Charts

4. Regional Performance Summary

Region	Orders	Revenue (■)	Collections (■)	Outstanding (■)	Coll. Eff. %
West	623	■22.02M	■15.62M	■6.39M	71.0%
South	135	■4.87M	■3.19M	■1.67M	65.7%
North	128	■4.42M	■2.69M	■1.73M	60.8%
East	114	■4.06M	■2.83M	■1.23M	69.6%

5. Order Status Breakdown

Status	Count	% of Total	Revenue (■)	Amount Paid (■)
Paid	519	51.9%	■18.42M	■18.42M
Paid Late	163	16.3%	■5.07M	■5.07M
Overdue	107	10.7%	■4.01M	■0.00M
Outstanding	106	10.6%	■4.00M	■0.00M
Cancelled	60	6.0%	■2.23M	■0.00M
Partial	45	4.5%	■1.64M	■0.84M

6. Key Findings & Recommendations

- 1

West Region Dominance

West region contributes █22.02M (78.8% of revenue) but also holds █6.39M outstanding. Targeted collection drives in West can have maximum impact.
- 2

High 90+ Day Aging

273 orders (27.3%) fall in the 90+ days aging bucket, indicating a systemic delay in collections. Immediate escalation process should be established for aged receivables.
- 3

Strong Collection Efficiency

Overall collection efficiency of 68.8% is commendable. North region at 60.8% is the weakest and requires dedicated AR follow-up.
- 4

Peak Revenue in Oct & May

October (█3.74M) and May (█3.55M) are peak months. Staffing and credit controls should be scaled accordingly during these periods.
- 5

DSO Improvement Needed

DSO of 113.9 days is above industry norms. Implementing early payment discounts and stricter credit terms can reduce DSO significantly.
- 6

Top Customers at Risk

Shinde Provision Mart (█357K) and Lokare Traders (█330K) carry the highest outstanding amounts. Dedicated account management is advised.
